

Pianta&Passione
La Natura è il Nostro Hobby

Pianta&Passione is the Hobby division of Ecofaber, a leading company in the production of horticultural plants, both grafted and standard, which has made a name for itself over the years for innovation and professionalism.

Pianta&Passione is the result of a choice to dedicate an entire division to the Hobby sector and has the advantage of being able to make use of Ecofaber's modern technology and its years of experience. Thanks to its precise and reliable organisation, it can offer an enormous variety of horticultural species, all guaranteed by controlled and certified processes.

Pianta&Passione is especially aimed at small-scale growers and for those with a home garden, who wish to produce the good crops and the well-remembered tastes of the past.
